FEATURES and BENEFITS

Emissions

- The Kubota EA330 engine complies with EPA Tier 4 emissions regulations. These are the most stringent emissions regulations in the world in this class.

Durable Power

- The Kubota EA330 engine has been chosen as the power source for a variety of applications.
- Combustion chamber with TVCS (Three Vortex Combustion System) provides stable performance even at high engine rpm. And because of the extra displacement for its output, work goes surely and steadily.
- This engine offers a seamless transition from Tier 2 to Tier 4 by entirely maintaining the same performance and physical characteristics of the previous Tier 2 engines.

Clean and Quiet Power

- Kubota's original TVCS (Three Vortex Combustion System) provides ideal mixture of air and fuel, and enables low fuel consumption.
