

Home Generator Systems

Briggs & Stratton, a trusted name in power for a century, is proud to offer the world's first series of High Efficiency Home Generator Systems. Whether you are home or away when the power goes out, our Home Generator Systems will provide fully automatic operation and a permanent connection to natural gas or propane for years of reliable whole house standby protection. Superior design means half the size, half the sound, half the fuel consumption, and half the price of most competitive systems.

You don't need a larger generator to get premium comfort, just a smarter one.

Computer Controlled for Maximum Efficiency

IntelliGEN™ Series

Premium Features for Premium Comfort

Fully Automatic – Advanced electronics will detect a utility power outage and automatically start the generator whether you are home or away.

Vanguard™ V-Twin Engines – An industry leading commercial grade Big Block™ air-cooled engine provides powerful, quiet, durable performance for large, power hungry homes - perfect for years of heavy-duty standby power.

Sound Shield™ Technology – Engineered air passages, an automotive-style exhaust system and acoustic foam dampeners ensure quiet operation. (65 - 68dB under normal load)

CoastGuard™ All-Climate Enclosure – Features heat/rust proof polymer vents and louvers, rounded corners and a 3-step automotive rust proofing & wet coat paint process for years of durable outdoor protection - perfect for extreme weather and salt air conditions.

Turn Key Extras – Each IntelliGEN™ Series system includes a battery charger, hour meter, and installation pad. The engine also comes pre-filled with synthetic oil and is pre-run at the factory, saving you time & money.

Premium Warranty – 4 year limited - your guarantee of quality and performance.

Legendary Service & Support – From professional sizing and delivery to installation & service, trust the proven experts at Briggs & Stratton for complete peace of mind.
